3115 East 12 Street  
Kansas City, MO 64127

Dear Mr. Thomas:

In this Thanksgiving season, I want to take this opportunity to thank you for all of your hard work, dedication, and decision-making that you provided for the construction projects for Brookside.

On behalf of the students, staff, and families, I want to let you know how delighted that we are with our new facility. We loved the air conditioning during the warm weather. We appreciate the safety features for the playground and throughout the building. We are also enjoying the spruced up classrooms, cafeteria, and hallways. Over the past several weeks, we have grown to be comfortable in our delightful spaces.

Our previous site was cramped and dark. It is so refreshing to have vibrant sunlight and large classrooms and hallways.

The summer was hectic with the rushed construction schedule. But with your determination and enthusiasm, you helped to carry out the many aspects of the project in record time.

The families are delighted that their children have such a fine facility to attend Brookside School. They have been eager to help with finishing touches.

Without your professional expertise and positive attitude, Brookside would not have our fine, renovated building. We love our new home!

Thank you,

Millie Krna, Executive Director
